Brad McCormick Named New Director of Technology for the Pennsbury School District

(FALLSINGTON, PA – June 20, 2019) The Pennsbury Board of School Directors appointed Brad McCormick to serve as the new Director of Technology for Pennsbury during the public School Board meeting held on June 20, 2019. Mr. McCormick will replace outgoing Director, Kevin Dorsey.

Mr. McCormick has served as the Supervisor of Educational Technology for Pennsbury since November 2016. In that capacity, he researched and evaluated major Technology Department purchases, collaborated with colleagues to confirm timely completion of state data reporting, worked with District coordinators to evaluate curriculum materials, and developed District-wide educational technology goals, among other responsibilities. He has also been instrumental in supporting staff and student teaching and learning throughout the implementation of the District-wide 1:1 Chromebook initiative. Prior to that position, Mr. McCormick served as a teacher of social studies at Charles Boehm Middle School from 2012-2016. He was also a full-time substitute teacher of science and social studies from 2009-2011.

As the Director of Technology, Mr. McCormick will report to Superintendent Dr. William Gretzula. The Director of Technology is responsible for the leadership, planning, coordination, communication, evaluation, and monitoring of the District’s technology programs, including the student information and business function systems; Pennsylvania assessments, reporting, and compliance systems, including PIMS, PVAAS, Compass, Cognos, and TIMS; network supervision and management; technical support for end users; training program development and implementation; instructional delivery systems; hardware and software acquisitions, training, and maintenance; instructional and management technology planning; budget preparation, management, and control; and supervision of IT department staff.

“It has been wonderful to watch Brad’s talents as an educator support our District-wide educational transformation,” said Superintendent Dr. William Gretzula. “Now Brad has the opportunity to use his leadership skills to maintain and enhance the momentum of technology offerings throughout all levels of the organization. He has the full support of those who have had the pleasure of collaborating with him.”
