

2020-2021 QH OM Team

Quarry Hill Elementary Odyssey of the Mind team ("Team Snow Leopards") received 1st place in the Regional tournament held virtually on March 6, 2021.

The team competed in the Division 1 virtual Odyssey category where the team had five months to develop a solution for a character to unknowingly enter a virtual reality world, where he is captured by a nefarious creature and has to earn his way back into the real world by earning credits.

Then, the team had to create three technical devices; one that appeared to turn an object from 2D to 3D; one that signaled when a credit was earned and; the last technical device was anything the team wanted to build. Additionally, the team was required to build a special effect used when the character unknowingly entered the virtual reality world.

The Quarry Hill team will advance to the PA State Odyssey of the Mind competition held virtually on April 10, 2021. We wish Team Snow Leopards the best of luck!
