TERRI SALVUCCI
Principal

Dear Parent/Guardians:

As you know the district has many internet based programs that can be accessed from home and school. Our students enjoy many of these programs but it is very hard to remember log in information for each one. The district has purchased a program called Clever. The students can use one log in and access all of the programs they are utilizing at school.

- The link for Clever is <http://www.pennsburysd.org/StudentInformation.aspx>
- When you get to that page, click on **Clever Log In - Students**. It is the fourth link down.
- For email address put in their student ID number and follow with @pennsburysd.org and then the password. (It is the same username and password they use in the computer lab to log into the computers.)
- **If they have a Clever Badge (K-2) and your home computer has a camera you can scan the badge when you go to the link rather than put in the username and password.**

Once they log into Clever from the link above they will have access to most of the programs that we use at Manor. For example, ConnectEd-EM4, Compass Learning, Lexia, ...

Hopefully this will make things easier for our students and their families when they want to work on our internet based programs at home.

Sincerely,

Terri Salvucci
Principal
