

PENNSBURY SCHOOL DISTRICT BUS GARAGE PARTS BID # 2425-015

The following bid is for The Pennsbury School District's Bus Garage Parts and Supplies for the 2024-25 School Year. The Pennsbury School District reserves the right to choose the lowest bidder on a specific item or choose the lowest bidder overall in each category. Prior to bidding keep in mind that some items on the bid are very specific and the district will only use that specific brand of the particular part (ex. Brake Shoes, Transmission Fluid, ect). Also, the district reserves the right to separate the items on the bid to bulk purchase orders that will only be placed in July 2024 and blanket purchase orders that will be placed in July 2024. Vendors that have items on blanket purchase orders are required to send a salesman to our facility once a week, minimum, and items ordered on a blanket purchase order are expected to have a maximum of a two-day turn around time, otherwise the district reserves the right to charge a 10% penalty per day after the second day to the vendor for the total of the order. If the quality of the product does not meet the district's expectations they will be returned to the vendor and the vendor will be responsible for the cost of the return. Furthermore, if the quality of the items does not meet the district's standards it puts the vendor in jeopardy of losing all of its future business with the district for, a minimum, of the rest of the school year.

Please note that there are 10 tabs below in addition to this informational tab.

If any vendor has any questions regarding the items on this bid they should contact the Pennsbury School District Transportation Department Garage Supervisor, Derek Cesari by phone or email. dcesari@pennsburysd.org or call 215-428-4166

BID OPENING-Thursday, March 21st, 2024 2 PM

It is important to note that the Pennsbury School District prefers to use Bendix brake lining, or comparable, on district owned buses. The vendor must provide the proper hardware kit, including pin bushings with each set of brake shoe. If you are bidding a different lining it is important that you provide specification sheets for the lining.

This entire section will be awarded to the lowest qualified vendor and they will be supplied with a Blanket Purchase Order.

NOTE: The regular brake chamber must include the clevis pin and hardware with the brake chamber.

Pennsbury School District prefers Duracell or comparable batteries. All battery cores will be swapped upon delivery of the batteries, therefore it is unnecessary to include the core charge on the bid. The items in this section may be awarded to separate vendors or grouped together depending on the results.
